Transcend®

JetFlash® 220

USB Flash Drive

Fight back against data theft with Transcend's new secret weapon – the JetFlash 220. With its elegant streamlined design and versatile features, the new JetFlash 220 combines the convenience of high-speed portable data storage with state of the art biometric security.

The JetFlash 220's fingerprint recognition technology not only makes it easy to safely store personal files and sensitive office documents, but also allows users to automatically log on to websites that require a username and password. Other useful features include powerful 256-bit AES encryption, Mobile Favorites, PC-Lock, Virtual Disk and the ability to adjust the size of the drive's Private and Public partitions at whim. The JetFlash 220's sleek, low profile design includes an attractive rotating cover that never gets lost.

Advanced **Fingerprint** Security

JetFlash® 220

USB Flash Drive

Weight	13g
Certificates	CE, FCC, BSMI
Operating Systems	Windows® 2000, XP, Vista
Supported	Mac® OS 9.0 or later, Linux® kernel 2.4.2 or later

INCLUDED SOFTWARE

1.

Fingerprint authentication for increased security

Whether accessing protected files, folders, logging on to websites, or changing any of the JetFlash® 220 advanced system options, the Fingerprint Authorization window automatically pops up for easy, secure authentication.

2.

Register multiple fingerprints

The JetFlash® 220 software lets you choose whichever fingerprints you prefer to use as your keys, giving you increased security options and personalization.

3.

Maximum-security protection for ALL your files

Protect files not only on your JetFlash but anywhere on your computer with powerful 256-bit AES encryption technology. Once protected, the only way anyone can access your personal files is with your fingerprint.

4.

Take your Favorites with you

The Mobile Favorites function saves a copy of your favorites on the JetFlash® 220, allowing you to plug the JetFlash into any compatible computer and browse your websites just like you would at home.

5.

No more lost passwords

After scanning your fingerprint to identify yourself, the JetFlash® 220 lets you automatically log on to websites that require your username and password without a single keystroke!

6.

Repartition Wizard

This useful tool lets you individually adjust the size of your Private and Public partitions on the JetFlash® 220. If necessary, it also lets you reformat the drive, as well as update it to the latest available software version.

7.

Protect your computer with confidence

The PC-Lock function allows you to temporarily lock your PC to prevent others from accessing your computer while you are away.

8.

Create a virtual disk on your computer's hard drive

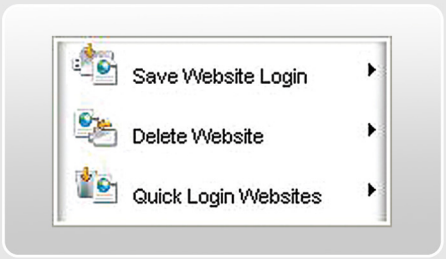
This useful tool lets you create a private, virtual disk on your computer's hard drive. You can adjust the virtual disk size according to the available hard drive space.

Key Benefits

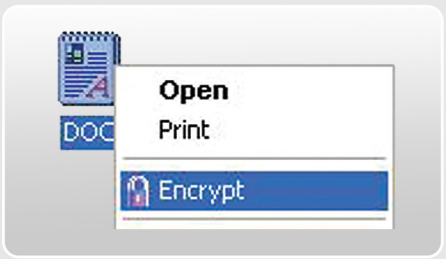
Fingerprint recognition security

Convenient rotating cover

Register multiple fingerprints



Website Auto-Login



Maximum-security protection for ALL your files
